## Benefits

The framework for this three-week academic program, interwoven with practical knowledge and a cultural exchange, is built around pooled interdisciplinary expertise and know-how about green building technologies from different research institutes.

### → Learn from the best

Acquire cutting-edge skills from an Austrian consortium of eight universities, experts and alliances.

### → Best practice at hand

Learn from internationally competent leaders in their fields.

### → Try it yourself

Enjoy Vienna while living in a passive house.

### → Add value to your clients

Deliver knowledge and skills for healthy, comfortable and energy-efficient buildings.

## Organizers

The **OeAD-Housing Office** offers passive houses for active students and accommodates 2,500 guests in energy-efficient student dormitories each year. It is the winner of the 2013 Austrian Climate Protection Award.

The **BOKU University of Natural Resources and Life Sciences, Vienna** contributes to sustainable use of natural resources by connecting natural sciences, engineering and economic sciences.
